

## Transition to Adult Healthcare - Neurology

The transition from pediatric to adult healthcare is a crucial milestone in your healthcare journey. As part of our commitment to providing comprehensive care, we aim to provide you with guidance on initiating this process and emphasize the importance of beginning early.

Please see our list of resources for those currently accepting new neurology patients.

**Phone: 617-638-9944**

For more information please visit - [bmc.org/neurology](http://bmc.org/neurology)

### Important questions to ask while scheduling your new appointment...

What's the best way to send my medical records to you?

What medical records will be most important for your review?

What is the facility or doctor's NPI number? (Your PCP office may need this for a referral.)

Is my insurance accepted at your practice? Do I need a referral from my PCP for insurance reasons?

## You have a new Adult Neurology appointment booked... now what?

1. Let your current provider team know of your new appointment. We may encourage scheduling one last appointment to complete the transfer of care.
2. Contact our medical records department at **(617) 355-7566** to initiate a transfer of records to your new provider.  
More information - [childrenshospital.org/patient-resources/you-arrive/your-visit/medical-records](https://childrenshospital.org/patient-resources/you-arrive/your-visit/medical-records)
3. Check your medications to ensure you have enough supply between now and your new appointment.
4. If questions for your Boston Children's Neurologist do arise in the meantime, you are welcome to contact our office via portal or phone.
